## **Welcome to Innovation, Design and Freedom**

The innovation, design and freedom you get from using Jabra headsets, speakerphone and mobile accessories have made Jabra one of the world's leading brands in the hands-free, mobile communications market.

Our award-winning headset range features wireless and corded models for every kind of mobile lifestyle, with designs that integrate comfort with technology – enabling you to use mobile communication freely and naturally.

Jabra has a Bluetooth® mobile solution to suit everyone, combining comfort, sound quality and ease of use to make phone calls as natural as face-to-face conversations.

Whatever style you choose, you can be assured that everything we know about personal mobile communications is built-in – exceptional performance, comfort and reliability.

## **What is Bluetooth wireless technology?**

Bluetooth wireless technology is an open, accepted standard for wireless communication which means that Bluetooth equipment can communicate as long as they are within 30 feet of each other, making it possible to transfer data, speech, music or images without a physical connection.

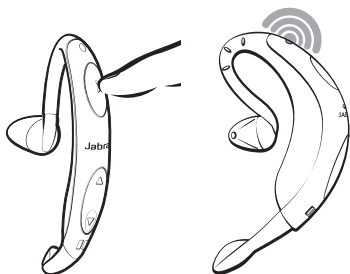

In the mobile phone market Bluetooth wireless technology connects speakerphones or headsets to mobile phones, giving the user a true hands-free experience and a greater sense of freedom.

## How to pair to a Bluetooth headset

The instructions below show how simple it is to pair a Jabra Bluetooth headset (the Jabra BT250 in this case) to a Bluetooth mobile phone.

- 1 Ensure the headset is off.
- 2 Press and hold the **multi-function button** until you see a solid blue light (approximately 8 seconds), then release (see illustration below).

- 3 Set the Bluetooth phone to **“discover”** the headset by following your phone’s instruction guide. Typically, the steps involve going to a **“setup,” “connect,”** or **“Bluetooth”** menu on the phone and then selecting the option to **“discover”** a Bluetooth device.
- 4 The phone will find the **“Jabra BT250”** headset and ask whether you want to pair with it. Confirm this by pressing **“yes”** or **“ok.”**
- 5 Enter passkey or PIN = 0000 (4 zeros), then press **“yes”** or **“ok.”**

If pairing was successful, the blue indicator light will briefly flash rapidly before going back to flashing every 3 seconds.

You can find the procedures for pairing popular Bluetooth mobile phones and Jabra headsets at [www.jabra.com](http://www.jabra.com).
