# JABRA®

## EarWave Headsets

# The next wave in comfort and performance

## EarWave™ BOOM

## EarWave™ BUD

# EarWave™ BOOM

**Looks good, feels great, sounds even better**

### High performance

The JABRA EarWave Boom's noise-cancelling microphone reduces background sound to ensure optimal voice clarity for crystal clear conversations, even while on the go. Sound quality is optimised by the high sensitivity speaker and the JABRA MiniGel™ which channels sound into the ear for exceptional clarity and reception.

### Superb comfort

The EarWave Boom features a contoured earpiece that fits

discreetly behind the ear and an ultra-lightweight microphone boom.

### Enhanced features

The EarWave Boom also features an answer/end button on the boom itself. This gives you the convenience of answering and ending calls or activating voice dialing, from the headset (if supported by your phone).

**Fits you, your phone and your lifestyle**

# EarWave™ BUD

### Unbeatable comfort

The EarWave Bud is so small it virtually disappears when you put it on. Its contoured, behind-the-ear style and ultra light weight not only makes the headset discreet and comfortable to wear but also keeps it securely in place.

### Superb sound quality

The EarWave Bud features an in-line microphone to ensure crisp and consistent voice transmission. MiniGel channels sound directly into the ear for perfect reception.

### Smart style and smart features

An in-line answer/end call button makes it convenient to answer and end a call or activate voice dialing at a touch (if supported by your phone).

### 1 Design

Breakthrough styling with contoured, behind-the-ear design.

### 2 MiniGel™

JABRA MiniGels™ channel sound and pivot for use in either ear. 4 MiniGels included - standard & small.

### 3 Speaker

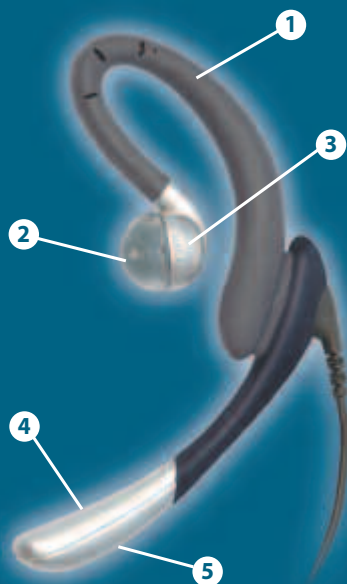

High sensitivity speaker combined with the JABRA MiniGel optimises volume and enhances reception sound quality.

### 4 Boom microphone

Noise-cancelling microphone reduces background sound and provides consistent voice clarity.

### 5 Multi-function button

Answer/end call button is on the boom making it convenient to answer and end a call or activate voice dialing (if supported by your phone).

### 1 Design

Contoured, behind-the-ear design is discreet and ultra-lightweight.

### 2 Speaker

High sensitivity speaker combined with MiniGel optimises volume and enhances reception sound quality.

### 3 MiniGel™

JABRA MiniGels™ channel sound and pivot for use in either ear. 4 MiniGels included - standard & small.

### 4 Microphone

In-line microphone for crisp and consistent voice transmission.

### 5 Multi-function button

Answer/end call button makes it convenient to answer and end a call or activate voice dialing (if supported by your phone).
