# Jabra BT 800

## Welcome to Innovation, Design and Freedom

The innovation, design and freedom you get from using Jabra headsets, speakerphone and mobile accessories have made Jabra one of the world's leading names in the hands-free, mobile communications market.

Our award-winning headset range features wireless and corded models for every kind of mobile lifestyle, with designs that integrate comfort with technology – enabling you to use mobile communication freely and naturally.

Jabra has a Bluetooth® mobile solution to suit everyone, combining comfort, sound quality and ease of use to make phone calls as natural as face to face conversations.

Whatever style you choose you can be assured that everything we know about personal mobile communications is built-in – exceptional performance, comfort and reliability.

## What is Bluetooth wireless technology?

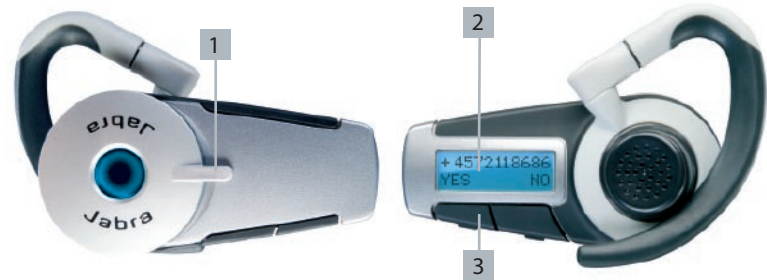

Bluetooth wireless technology is an open, accepted standard for wireless communication which means that Bluetooth equipment can communicate as long as they are within 10 metres of each other, making it possible to transfer data, speech, music or images without a physical connection.

In the mobile phone market Bluetooth wireless technology connects speakerphones or headsets to mobile phones, giving the user a true hands-free experience and a greater sense of freedom.

## The ultimate, fully-featured Bluetooth headset

Display for  
Caller ID  
and menu

Digital  
Signal  
Processing

**The world's most advanced Bluetooth headset is also the first to combine DSP, visual display, ring tones and call vibrate alert and is styled to complement modern phone design.**

- Vibrating call alert and 5 ring tones
- DSP technology provides noise cancellation and automatic volume control
- Mute button also accesses menu options in standby
- Charging from AC power adaptor, car charger or PC via USB cable
- Up to 6 hours talk time and 125 hours standby time
- 25 grams (approximately  $\frac{3}{4}$  ounce)
- Headset and hands-free Bluetooth profiles
- Bluetooth version 1.2

1

### Jog Wheel

Controls the volume during a call or, in standby, scrolls through menu options

2

### Backlit display

Shows Caller ID and menu options

3

### Dedicated 'Answer' and 'End' buttons

Make call handling and control of display intuitively simple

# Jabra EARWAVE BUD

So light and comfortable, you'll forget you're wearing it

The stylish design of the Jabra EarWave Bud headset complements the slimline style of modern mobile phones.

- Discreet and lightweight design virtually disappears behind-the-ear
- In-line microphone for clear voice pick-up
- Comfortable design keeps the product securely in place

Lightweight design

Behind-the-ear design

1

**Jabra MiniGel™**  
Secure behind-the-ear fit (on either ear) with patented Jabra MiniGel™

2

**Answer/end call button**  
Makes it convenient to answer and end a call or activate voice dialing (if supported by your phone)

# Jabra EARWAVE BOOM

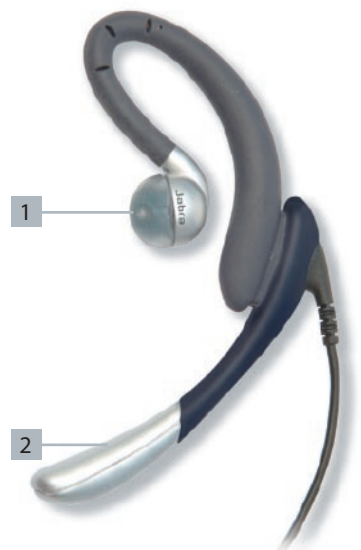

Looks good, feels great, sounds even better

Lightweight, stylish and with clear sound quality, no other boom headset can match the Jabra EarWave Boom for all day wearing comfort.

- Breakthrough style gives contoured fit for unparalleled comfort
- Clear audio quality from the noise-cancelling microphone and high quality speaker
- Ultra lightweight, behind-the-ear design for a secure fit

Noise cancelling microphone

Lightweight design

1

**Jabra MiniGel™**  
Channels sound and pivots for use in either ear

2

**Noise-cancelling microphone**  
Reduces background sound and provides consistent voice clarity

# Jabra PROBOOM

## Delivers the finest sound quality in its class

Excellent sound quality

Two wearing styles

**With its extended boom arm and noise-cancelling microphone, Jabra ProBoom is designed for the optimum sound quality that mobile professionals demand.**

- Wind sock for the microphone ensures crystal clear conversations even in windy conditions
- 2 comfortable wearing styles; soft EarGels® or flexible ear hook
- In-line control lets you adjust the volume without touching the phone
- Noise-cancelling microphone for crystal clear conversations
- Sleek and professional design
- Answer/end call button

**1**  
**Flex-forming ear hook**  
2 comfortable wearing styles; soft EarGels® or flex-forming ear hook

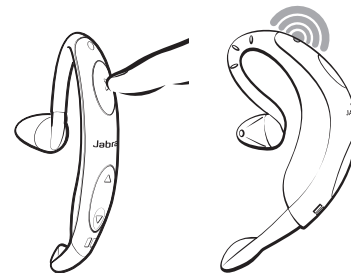

**2**  
**Noise-cancelling microphone**  
Emphasises the voice over background noise

**3**  
**Flexible, durable boom**  
For optimal microphone positioning

## How to pair to a Bluetooth headset

The instructions below show how simple it is to pair a Jabra Bluetooth headset (the Jabra BT250 in this case) to a Bluetooth mobile phone.

- 1 Ensure the headset is off
- 2 Press and hold the **multi-function button** until you see a solid blue light (approximately 8 seconds), then release (see illustration below).

- 3 Set the Bluetooth phone to **"discover"** the headset by following your phone's instruction guide. Typically, the steps involve going to a **"setup"**, **"connect"**, or **"Bluetooth"** menu on the phone and then selecting the option to "discover" a Bluetooth device.
- 4 The phone will find the "Jabra BT250" headset and ask whether you want to pair with it. Confirm this by pressing "yes" or "ok".
- 5 Enter passkey or PIN = 0000 (4 zeros), then press "yes" or "ok".

If pairing was successful, the blue indicator light will briefly flash rapidly before going back to flashing every 3 seconds.

You can find the procedures for pairing popular Bluetooth mobile phones and Jabra headsets at [www.jabra.com](http://www.jabra.com)
