

Go mobile. Go hands-free.

If you think a mobile phone gives you freedom, wait until you try a hands-free headset from JABRA. Feel free to hold a conversation instead of a phone. Using a JABRA is safer, smarter and more convenient than using a mobile phone the old-fashioned way.

Why use a headset?

- Safer – especially when you're driving
- Convenient – lets you keep both hands free
- Natural – phone calls are more like face-to-face conversations

Why choose JABRA?

- Engineered to provide better sound quality than your handset alone
- Smart and durable design
- Miniaturised and lightweight
- Available for over 90% of all mobile phones
- Patented, custom-fit JABRA EarGels® and JABRA MiniGels™ offer long-wearing comfort

JABRA MiniGels™ channel sound and pivot for use in either ear

NEW JABRA EarWave™ Boom

Looks good, feels great, sounds even better

- Breakthrough style offers a contoured fit for unparalleled comfort
- Superb audio quality from the noise-cancelling microphone and high quality speaker
- Ultra-lightweight, behind-the-ear design for a secure fit

Noise-cancelling microphone reduces background sound and provides consistent voice clarity

Contoured, behind-the-ear design hugs the ear comfortably

NEW JABRA EarWave™ Bud

So light and comfortable, you'll forget you're wearing it

- Discreet and ultra-lightweight design virtually disappears behind the ear
- In-line microphone for superb voice pick-up
- Ultra-comfortable design keeps the product securely in place

Answer/end call button makes it convenient to answer and end a call or activate voice dialing (if supported by your phone)

Patented EarGels® stay in place as you talk and speak

JABRA EarSet® WindUp™

Tangle-free cord winds up for storage

- Easy-to-use, tangle-free cord solution plus the only patented all-in-one speaker and microphone
- A button on the earpiece lets you answer or end a call and activate voice dialing (varies by phone model and service) with a touch
- Lightweight design gives you hours of comfortable wear

Retractable cord winds up for compact storage that fits in the palm of your hand

Durable lanyard ensures that your phone and EarBud hang securely

JABRA EarBud™ Lanyard

Keep your EarBud and your mobile phone comfortably within reach

Your EarBud and your mobile phone can both hang comfortably around your neck with JABRA EarBud™ Lanyard. Perfect for use with lightweight phones, EarBud Lanyard offers you a hands-free solution plus the convenience of knowing your phone is within reach. It also features an in-line microphone positioned close to your mouth for optimal sound quality, and patented EarGels® for a secure fit and outstanding hearing and comfort.

Compatible with any mobile phone with a standard 2.5mm headset jack

A choice of wearing styles – flexible ear wrap or comfort-fit EarGel®

JABRA ProBoom™

Delivers the finest sound quality in its class

With an in-line volume control and noise-cancelling microphone in the full length boom, everything about the JABRA ProBoom is designed for optimal sound quality. You can enjoy crystal-clear telephone conversations even in windy conditions.

The stylish design of ProBoom also offers two comfortable wearing styles. Wear with the soft EarGels® or snap on the flex-forming ear wrap.

The ProBoom features a noise-cancelling microphone that enhances sound quality in noisy or windy environments

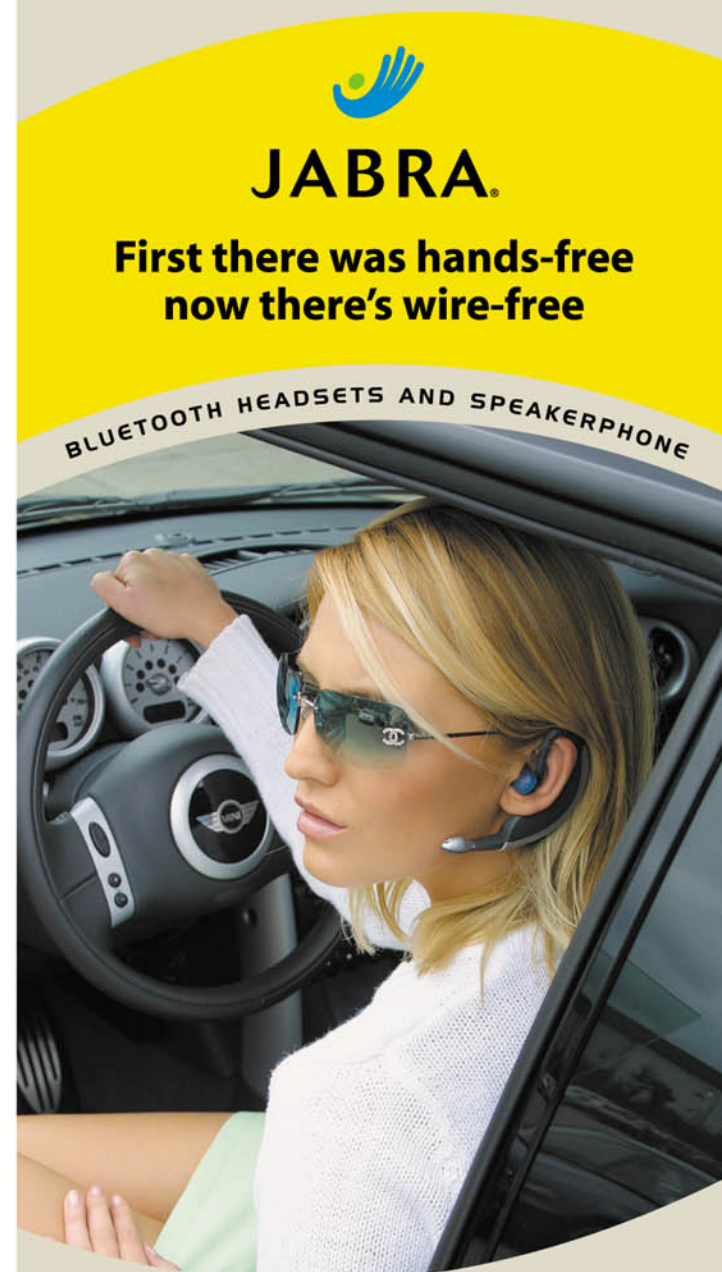

JABRA EarGels®

Hours of comfortable wear plus enhanced sound quality

Patented JABRA EarGels® fit securely on the earpiece and in your ear as you move and talk. Designed to boost sound directly into your ear, EarGels allow you to hear more clearly than if you were using a phone alone. EarGels don't block the ear canal, so you can hear outside sounds like sirens. They also feature a channeled design that lets air circulate freely, and washable EarGels are softer and smoother than scratchy foam earpads.

Patented design is more comfortable than earpads

JABRA
First there was hands-free
now there's wire-free

BLUETOOTH HEADSETS AND SPEAKERPHONE

Comfortable

JABRA is the specialist in headset design for mobile phones. The very latest technology and materials make JABRA headsets ultra-lightweight and their ergonomic design makes them so comfortable and secure that you'll forget you're wearing one.

Smart

Smart design and smart technology mean JABRA Bluetooth headsets are the smart way to use a mobile phone.

As well as state-of-the-art sound quality, greater comfort and convenience, you'll appreciate having both hands free, whether you are working, relaxing and particularly when you're driving.

JABRA BT200

UP TO 3 hours talk time
UP TO 100 hours standby

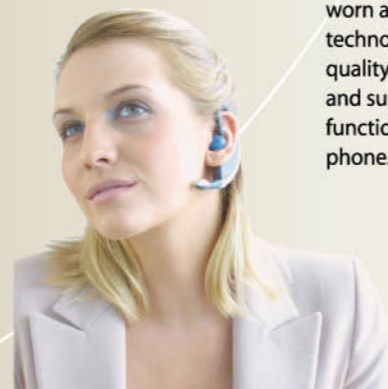

Contoured and flexible design fits either ear comfortably. The sound absorbing elastomer material reduces distortion for crisp sound quality

JABRA MiniGel™ Ergonomic JABRA MiniGel pivots for use in either ear and channels sound into the ear canal for superior clarity

The world's best-selling Bluetooth headset!

The JABRA BT200's combination of style and technology has made it the world's favourite Bluetooth headset.

Its discreet, behind-the-ear wearing style is comfortable enough to be worn all day. It contains the latest technology to give crystal clear sound quality whilst being simple to use and supporting all the voice-activated functions you enjoy in your mobile phone.

NEW JABRA FS258

UP TO 8 hours talk time
UP TO 240 hours standby

Multi-function button Press the button to answer, end and transfer calls. Also supports voice-activated dialing (if supported by your phone)

Microphone Superior uni-directional microphone emphasises your voice and reduces background noise

The Bluetooth headset that works as hard as you do!

If you spend your life on a mobile phone, you'll appreciate JABRA FS258's long battery life, providing you with up to 8 hours of talk time and up to 240 hours of standby before re-charging.

Superior performance is matched with unbeatable comfort – the JABRA FS258 is so lightweight and comfortable that you'll forget you're wearing it. And with superb sound quality at both ends of the call, the JABRA FS258 is the best way to talk hands-free and cord-free all day long.

JABRA BT200 FOR NON-BLUETOOTH PHONES

UP TO 4 hours talk time
UP TO 100 hours standby

Bluetooth multi-adaptor Charger/holder/Bluetooth adaptor, with belt clip

Cord 20 cm connection cord with adaptor (if supported by your phone)

All the benefits of a Bluetooth headset – whichever mobile phone you use

The JABRA BT200 for non-Bluetooth mobile phones combines the world's best-selling Bluetooth headset with JABRA's Bluetooth multi-adaptor, giving you all the benefits of Bluetooth wireless connection on your standard mobile phone.

The multi-adaptor simply plugs into your mobile phone to give cordless communications to the lightweight headset. It also supports your phone's voice-activated features as well as giving you call answer/end on the headset up to a range of 10 metres.

NEW JABRA SP100

UP TO 12 hours talk time
UP TO 480 hours standby

Microphone Pivots to emphasise your voice over any background noise

Speaker Provides superior sound quality in noisy environments

Multi-function call button Supports voice-activated dialing and answer/end commands (if supported by your phone)

The Bluetooth speakerphone for the car and office

The JABRA SP100 is a high performance Bluetooth speakerphone that's as mobile as you are. Either self-standing on the desk or with the choice of clip or suction cups supplied for use in-car, the JABRA SP100 delivers outstanding audio clarity and voice pick-up.

Wire-free, hands-free and now headset-free, the JABRA SP100 is the most convenient way to use your Bluetooth mobile phone. Complete freedom of movement and the convenience of conference calling with friends or colleagues means the JABRA SP100 could change the way you use your phone.
